Student Portal Guide

Welcome to the Chewe Technologies Student Portal. This system provides transparent, real-time access to your academic journey.

Chewe Technologies (pvt) LTD

1. Accessing Your Data

Because Chewe Technologies takes security very seriously, you cannot create your own account. Your account credentials will be issued to you directly by your school's administration office.

- Navigate to the main login portal on your mobile phone or computer.
- Enter your officially issued email address and password.
- If you forget your password, click "Forgot Password" to receive a secure reset link in your email inbox.

Chewe Technologies (pvt) LTD

2. Navigating the Dashboard

Once logged in, your dashboard provides an immediate overview of your current standing.

Academic Progress

You will see a breakdown of all subjects you are enrolled in. For each subject, you can view your latest assessment scores. The system will clearly indicate if you are passing or falling into an "At Risk" category, allowing you to seek help early.

Teacher Insights

Below your grades, you will find customized commentary from your teachers. These insights (often powered by the school's AI system) will give you specific advice on how to improve your performance before final exams.

Attendance Metrics

Your daily attendance is tracked and displayed as a percentage. Maintaining a high attendance rate is strictly enforced by the Executive board. If you believe your attendance record is incorrect, please contact your teacher immediately to have the database updated.
